GARDENA Shrub-care Glove Size 9 / L

Commercial Reference: 218-20
Article number: 967 17 75-01
EAN: 4078500021807

These gloves protect and look great. Work on shrubs and thorny plants can be performed without pricks and other injuries. The GARDENA Shrub-care Gloves have special features: reinforced, robust fingertips protect the fingers while trimming and gripping. The palms and the backs of the fingers are safely protected by robust fabric material. This design is especially helpful when you need to carry thorny or sharp cuttings. No more sweaty hands: the selected material quality is breathable! As the Shrub-care Gloves have extra-long cuffs, not only your hands and wrists are well protected, but your lower arms as well. The special and premium-quality working of the thumbs allows delicate work when caring for shrubs and thorny plants. These gloves give the assurance of being able to work carefully and being protected at the same time.
